# DAY APPEAL

THE SHATER. The skafer lightly laughs and glides, Unknowing that beneath the ice Whencoun te carves his fair device, A stiffened corpse in allence sillors.

It clareth upward at his play; fix cold, hime rigid figures steal Beneath the trend egs of his heal; It floats along and floats away.

He has not seen its horror paw: His heart is blithe; the village hears If a distant laughter; he careers In festive walts athwarf the glass. We are the shaters, we who skim
The sprace of Life's solemn flood,
A dd ive, with gladiess in our blood,
And during dance from britis to brim.

Our feet are swift, our faces burn, Our hop a sapire lik sharing birds; The wer! takes routage from our words, And sees the golden time roturn.

But ever near us, silent, coid, Float those who beended from the bank Wit search be ris, like us, and sank, Because their feet were overbold. They sank the ough breathing holes of vice.
The ough treatment sheems of nubellef;
To y know not their despair and gristTheir hearts and minds are turned to see.

SIDE BY SIDE. BY FANNY & 05000D.

Side by side on the pi low soft.

Two fair heads to at rest;
While the mother heart broods tenderly.

As a bird o'er its hieden nest;

And the low and set do ho eight.

Its half werm beams from the West.

Side by side on the battle field, While a wan moon pales in the sky.
Claim the colors of North and South
I a dreamless sleep they is:
And the distant rise I lently but
From the marshes float and die.

While a mother mar wars and her team,
"Father, Thou knowed best."

And the low wan shines in joyingly he low wan shines in lovingly ough the win lows looking West.

Recklessness of Life.

# A Revolution in Cotton Plant-

From the Mason (Ga.) Telegraph, November 18. fields and thorough culture. Whoever lives a few years longer in Georgia will Paracelsus Bombast of Hohenheim: see five bales produced to the acre, and will learn that it is the kind of cotton curdled smoke, wherein a particular pre planting which pays. As labor will destination lyeth hid. And all thing gradually become the dearest element in shall at last vanish like smoke. For cotton production, that is the one which that specific which doth congulate hath must be chiefly economised, and the way power but a certain appointed time. The to do it is to till a little land for large same must be understood of the coagulacrops. We hear no other ideas among tion; for all bodies shall pass away and

ntelligent, reading planters. bring Georgia lands into request. True, end of things corporeal both living and it will temporarily throw many thousand dead. \* acres out of tillage, but practical results | coagulated fume." like these will tempt immigration and A coagulated fume! Think of that purchase. Multiply them and swell cot. vain man, nor ever again dare to put a ton productions far beyond its ancient "stove-pipe" on thy head. limits under slavery, and we shall distance all competition and monopolize the cotton producing of the world. The South will grow in wealth and power, and cease to be the butt of ridicule and the victim of political persecution.

# Pistol Practice Extraordinary.

For almost forty years past the United States has had the honor of possessing the Champion pistol shot of the world one invincible man, who in all that time has been victorious in every one of the scores of matches in which he has been pitted against the crack shots of march are of ice further northward" could be seen. pitted against the crack shots of every The exploring steamer, after taking in is familiar to every one—it is Capt. John Travis. His wonderful feats with his favorite weapon, the pistol, have never been equalled by any other man, and to them would be to write a history recount them would be to write a history the exploring party, "with the rich of his life, for very little of his life seems to have been lived out of range of a target. The events most familiar to public remembrance, however, have been his great match against the tamous been his great match against the tamous lars of all that our enterprising rivals Capt. Paul, at St. Louis, in which shooting "off hand" while Paul used rests, and crossed the Arctic Circle in July last. most as heavy as a howitzer, he beat his antagonist by over four inches, " string measure," in twenty shots; his match with lated and edited by the American Mis-Suydam, in New York, shooting "at the sionaries. It bears the imprint of the On the 1st of December. made by Col. B. this season. word," when he struck the target forty Baptist Free Mission Society, and the times in succession, firing before the title page and sundry sheets have been word one, or, in other words, within one received at that office. The English and second after being allowed to raise his Japanese are printed in parallel columns pistol; his shooting the orange from a and Roman type, an excellent arrangeman's head near New Orleans, his putment, which will facilitate the mastery of ting a ball through a hat held by Blon- both languages, enabling the natives to din, when the latter was waiking the learn English, and foreigners Japanese. In the former is expressed by its substitute of pistol against shot-gun, at Sharon. Pennsylvania, in which he shot seven birds out of ten, from the trap, on a windy day, with the pistol. The form the trap, on a windy day, with the pistol. These are but specimen leaves from the saverabut specimen leaves from the saverabut specimen leaves from the saverabut specimen leaves from the book of his experience, and to-day, at the age of fity-three years, he stands ready to repeat any and all of them. He offers to shoot backward against any other between the fit of January to the last day of the previous month. From the last day of the previous months. From the peat any and all of them. He offers to Put a small quantity of the vinegar in shoot backward against any other man's a clear glass and add a few drops of the forward, to match a shot gun, to, in short, do almost anything which seems quite impossible to be done with a pistol.

Schiedam Schnapps.

THE above Medicinal Severage is manufac-used by the proprietor, at his distillery, in soliedam, Holland, expressly for medicinal Sobledam, Holland, expressly for medicinal use.

It is now some twenty years atnos the proprietor first introduced it to the American public, and during that time he has received over three thousand letters from physicans, indoorsing it as the parest injust they have ever used in their practice.

It is made from barley of the first quality, selected with great care from the pounces of the most celebrated grain-growing districts, selected with great oars from the pounces of the most celebrated grain-growing districts, and all practices which expels from the spirit every seried particle.

As a means of preventing and correcting the disagreenbie and often dangerous offset produced upon the stomach and cowels by a change of water—a visitation to which travelers, new settlers, and all una-clim-tes persons in the Wast, the South, and Southwest are peculiarly Habis—the "CHILDRAM AROMATIC SCHNAFTS will be found absolutely infallible while it coses of dropsy gravel, obstructions of the kidneys, diseases of the bladder, stricture, dyspepsia and general debility, it is recommended most emphasically by the most distinguished members of the messical profession.

It is put up in quart and pint pottles, in cases, with the man c of the undarsigned on the bottle and oach, and a fac-size file of its signature on the labet. For sale by all respectable drugglats and country merchants.
